## 1 Rock Paper Lizard Spock Game

Its Simple

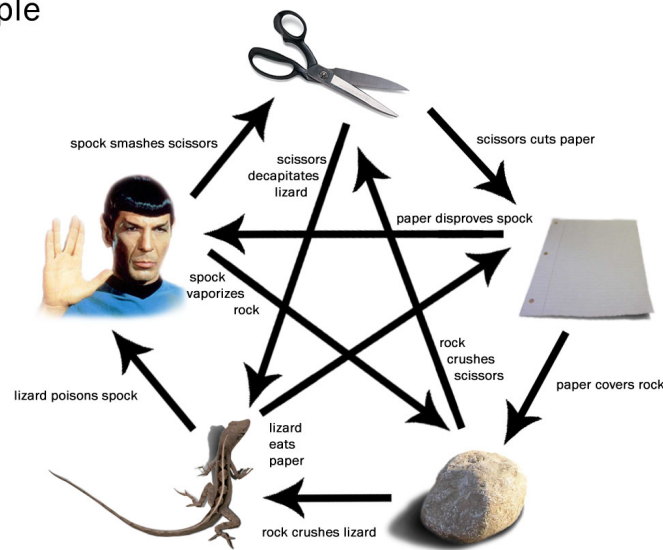

Figure 1: Helpful Diagram

### 1.1 Directions

1. Go to the github repository that holds this presentation material, linked Github Link
2. Use the template to create a game that simulates the the Rock Paper Lizard Spock Game detailed above
3. There are two helper functions you have to write, they're fairly self explanatory
4. The key *challenge* behind simulating this game is actually understanding the mathematical pattern to the game
  - think of modulus relations to help you solve this
5. if you need help Ask!
